DEBT OVERVIEW

Plan to De-Lever to Mid-2X

- 2Q18 debt decreased by \$268M versus 1Q18 primarily due to \$193M net debt payment and a \$76 million decrease in Euro bonds book values caused by a weaker Euro
- 2Q18 total debt to EBITDA declined to 3.1x from 3.2x in 1Q18. Plan to de-lever to mid-2x leverage ratio by mid-2019
- 2Q18 net interest expense was \$35M, \$1M higher than in 2Q17, primarily due to debt issued in connection with the eVestment acquisition

NON-GAAP ADJUSTMENTS FOOTNOTES

- (1) Refer to the non-GAAP disclaimer information section for further discussion of why we consider amortization expense of acquired intangible assets and other items to be non-GAAP adjustments.
- (2) For the three months ended June 30, 2018, this credit is primarily related to the reclass of costs incurred during the first quarter of 2018 to sell the Public Relations Solutions and Digital Media Services businesses. For the three months ended March 31, 2018, this expense is primarily related to the sale of our Public Relations Solutions and Digital Media Services businesses within our Corporate Solutions business. For the three months and year ended December 31, 2017 and for the three months ended September 30, 2017, this expense is primarily related to our acquisitions of eVestment, Inc. and International Securities Exchange, or ISE, as well as costs associated with the sale of our Public Relations and Digital Media businesses within our Corporate Solutions business. For the three months ended June 30, 2017, this expense primarily related to our acquisition of ISE. For the year ended December 31, 2016, this expense primarily related to our acquisitions of ISE, Boardvantage, Inc., and Marketwired L.P. For the year ended December 31, 2015, this expense primarily related to certain strategic initiatives and our acquisition of Dorsey, Wright & Associates, LLC. Refer to the non-GAAP disclaimer of this earnings presentation for further discussion on why we consider merger and strategic initiatives expense to be a non-GAAP adjustment.
- (3) During 2016, we completed our 2015 restructuring plan. For the years ended December 31, 2016 and December 31, 2015, restructuring charges primarily related to severance and other termination benefits, asset impairment charges, and other charges.
- (4) For the year ended December 31, 2016, we recorded a pre-tax, non-cash intangible asset impairment charge of \$578 million related to the full write-off of the eSpeed trade name due to a continued decline in operating performance of the eSpeed business during 2016 and a rebranding of our Fixed Income business.
- (5) During 2016, the Swedish Financial Supervisory Authority, or SFSA, completed their investigations of cybersecurity processes at our Nordic exchanges and clearinghouse. In December 2016, we were issued a \$6 million fine by the SFSA as a result of findings in connection with its investigation. The SFSA's conclusions related to governance issues rather than systems and platform security. We have appealed the SFSA's decision, including the amount of the fine. The court has not yet reached a decision regarding our appeal. This charge is included in regulatory expense in the Condensed Consolidated Statements of Income (Loss) for the three months and year ended December 31, 2016.
- (6) For the year ended December 31, 2016, we recorded \$12 million in accelerated expense due to the retirement of the company's former CEO for equity awards previously granted.
- (7) For the both the three months ended December 31, 2017, and for the year ended December 31, 2017 we established a sublease loss reserve on space we currently occupy due to excess capacity. The credit of \$1 million for the year ended December 31, 2016, pertains to the release of a previously recorded sublease loss reserve due to the early exit of a facility, partially offset by a sublease loss reserve charge recorded on space we currently occupy due to excess capacity.
- (8) We previously recorded receivables for expected value added tax, or VAT, refunds based on an approach that had been accepted by the tax authorities in prior years. The tax authorities have since challenged our approach, and the revised position of the tax authorities was upheld in court during the first quarter of 2015. As a result, in the first quarter of 2015, we recorded a charge of \$12 million for previously recorded receivables based on the court decision.
- (9) For the three months ended June 30, 2017 and for the year ended December 31, 2017, in connection with the early extinguishment of our 5.25% senior unsecured notes and the \$300 million repayment on our \$400 million senior unsecured term loan facility due November 25, 2019, we recorded a charge of \$10 million primarily related to a premium paid for early redemption.
- (10) For the three months ended June 30, 2018, the gain on divestiture of businesses, net pertains to the sale of the Public Relations Solutions and Digital Media Services businesses.
- (11) For the three months ended June 30, 2018, other charge was associated with a sales and use tax audit which related to prior periods. For the three months ended June 30, 2017 and for the year ended December 31, 2017, other charge relates to wind down costs associated with an equity method investment that was previously written off, which is included in net income (loss) from unconsolidated investees in the Condensed Consolidated Statements of Income (Loss). For the year ended December 31, 2016, other charges primarily include the impact of the write-off of an equity method investment, partially offset by a gain resulting from the sale of a percentage of a separate equity method investment. We recorded the net loss in net income (loss) from unconsolidated investees in the Condensed Consolidated Statements of Income (Loss).
- (12) We record our investment in The Options Clearing Corporation, or OCC, as an equity method investment. Under the equity method of accounting, we recognize our share of earnings or losses of an equity method investee based on our ownership percentage. As a result of a new capital plan implemented by OCC, we were not able to determine what our share of OCC's income was for the year ended December 31, 2014 until the first quarter of 2015, when OCC financial statements were made available to us. Therefore, we recorded other income of \$13 million in the first quarter of 2015 relating to our share of OCC's income for the year ended December 31, 2014.
- (13) The non-GAAP adjustment to the income tax provision includes the tax impact of each non-GAAP adjustment. For the three months ended June 30, 2018, we recorded an increase to tax expense due to the Swedish Administrative Court of Appeals unfavorable court rulings that were issued against other Swedish entities during the second quarter of 2018, the impact of which relates to prior quarters. The Tax Cuts & Jobs Act, or TCJA, was enacted on December 22, 2017. For the three months ended March 31, 2018, we recorded an increase to tax expense of \$5 million, which reflects the reduced federal tax benefit associated with state unrecognized tax benefits. For the three months ended December 31, 2017, we recorded a decrease to tax expense of \$89 million, which reflected the estimated impact associated with the enactment of the TCJA. The decrease in tax expense primarily related to the remeasurement of our net U.S. deferred tax liability at the lower U.S. federal corporate income tax rate. The amounts referred above may be refined in the future as new information becomes available. For the three months and year ended December 31, 2017, we recorded a decrease to tax expense of \$6 million, which reflects the impact of amending our assertion regarding the indefinite reinvestment of earnings of certain subsidiaries outside the U.S. In addition, the non-GAAP adjustment to the income tax provision reflects the recognition of previously unrecognized tax benefits associated with positions taken in prior years of \$8 million for the three months ended September 30, 2017 and \$12 million for the year ended December 31, 2017. Excess tax benefits related to employee share-based compensation of \$5 million for the three months ended March 31, 2018, \$10 million for the three months ended December 31, 2017, \$7 million for the three months ended September 30, 2017, \$40 million for the year ended December 31, 2017 were recorded as a result of the adoption of new accounting guidance on January 1, 2017. Refer to the non-GAAP disclaimer section for further discussion on why we consider excess tax benefits related to employee share-based compensation to be a non-GAAP adjustment. For the year ended December 31, 2016, we recorded a \$27 million tax expense due to an unfavorable tax ruling received during the second quarter of 2016, the impact of which is related to prior periods.

DISCLAIMERS

Non-GAAP Information

In addition to disclosing results determined in accordance with U.S. GAAP, Nasdaq also discloses certain non-GAAP results of operations, including, but not limited to, net income attributable to Nasdaq, diluted earnings per share, operating income, and operating expenses, that include certain adjustments or exclude certain charges and gains that are described in the reconciliation table of U.S. GAAP to non-GAAP information provided at the end of this release. Management uses this non-GAAP information internally, along with U.S. GAAP information, in evaluating our performance and in making financial and operational decisions. We believe our presentation of these measures provides investors with greater transparency and supplemental data relating to our financial condition and results of operations. In addition, we believe the presentation of these measures is useful to investors for period-to-period comparisons of results as the items described below do not reflect ongoing operating performance.

These measures are not in accordance with, or an alternative to, U.S. GAAP, and may be different from non-GAAP measures used by other companies. Investors should not rely on any single financial measure when evaluating our business. We recommend investors review the U.S. GAAP financial measures included in this earnings release. When viewed in conjunction with our U.S. GAAP results and the accompanying reconciliations, we believe these non-GAAP measures provide greater transparency and a more complete understanding of factors affecting our business than U.S. GAAP measures alone.

We understand that analysts and investors regularly rely on non-GAAP financial measures, such as non-GAAP net income attributable to Nasdaq, non-GAAP diluted earnings per share, non-GAAP operating income and non-GAAP operating expenses to assess operating performance. We use these measures because they highlight trends more clearly in our business that may not otherwise be apparent when relying solely on U.S. GAAP financial measures, since these measures eliminate from our results specific financial items, such as those described below, that have less bearing on our ongoing operating performance.

Amortization expense of acquired intangible assets: We amortize intangible assets acquired in connection with various acquisitions. Intangible asset amortization expense can vary from period to period due to episodic acquisitions completed, rather than from our ongoing business operations. As such, if intangible asset amortization is included in performance measures, it is more difficult to assess the day-to-day operating performance of the businesses, the relative operating performance of the businesses between periods, and the earnings power of Nasdaq. Management does not consider intangible asset amortization expense for the purpose of evaluating the performance of our business or its managers or when making decisions to allocate resources. Therefore, we believe performance measures excluding intangible asset amortization expense provide investors with a more useful representation of our businesses' ongoing activity in each period.

Merger and strategic initiatives expense: We have pursued various strategic initiatives, completed a divestiture, and a number of acquisitions in recent years which have resulted in expenses which would not have otherwise been incurred. These expenses generally include integration costs, as well as legal, due diligence and other third party transaction costs. The frequency and the amount of such expenses vary significantly based on the size, timing and complexity of the transaction. Accordingly, we exclude these costs for purposes of calculating non-GAAP measures which provide a more meaningful analysis of Nasdaq's ongoing operating performance or comparisons in Nasdaq's performance between periods.

Non-GAAP Information (cont.)

Restructuring charges: Restructuring charges are associated with our 2015 restructuring plan to improve performance, cut costs and reduce spending and as of December 31, 2016 are primarily related to (i) severance and other termination benefits, (ii) asset impairment charges, and (iii) other charges. We exclude these restructuring costs because these costs do not reflect future operating expenses and do not contribute to a meaningful evaluation of Nasdaq's ongoing operating performance or comparison of Nasdaq's performance between periods.

Asset impairment charge: Intangible assets that have indefinite lives are reviewed for impairment at least annually, or when indicators of impairment are present. For the year ended December 31, 2016, we recorded a pre-tax, non-cash asset impairment charge of \$578 million related to the full write-off of the eSpeed trade name due to a continued decline in operating performance of the eSpeed business during 2016 and a rebranding of our Fixed Income business.

Other significant items: We have excluded certain other charges or gains that are the result of other non-comparable events to measure operating performance. We believe the exclusion of such amounts allows management and investors to better understand the financial results of Nasdaq. The details of these items can be found in the footnotes to the non-gaap adjustments in this presentation.

Significant tax items: The non-GAAP adjustment to the income tax provision includes the tax impact of each non-GAAP adjustment. In addition, we have excluded certain other tax items which are the results of non-comparable events and for which we believe the exclusion of such amounts allows management and investors to better understand the financial results of Nasdaq. The details of these items can be found in the footnotes to the non-GAAP adjustments in this presentation.

Foreign exchange impact: In countries with currencies other than the U.S. dollar, revenues and expenses are translated using monthly average exchange rates. Certain discussions in this release isolate the impact of year-over-year foreign currency fluctuations to better measure the comparability of operating results between periods. Operating results excluding the impact of foreign currency fluctuations are calculated by translating the current period's results by the prior period's exchange rates.

Cautionary Note Regarding Forward-Looking Statements
