Edward S. Knight **Executive Vice President and General Counsel** NEWS RELEASE

NASDAQ REPORTS RECORD THIRD QUARTER 2015 NON-GAAP RESULTS

- Third quarter 2015 non-GAAP diluted EPS of \$0.88, an increase of 13% compared to the third quarter of 2014. Record revenues and non-GAAP operating, pre-tax income, net income and diluted EPS. Third quarter 2015 GAAP diluted EPS was \$0.80.
- Third quarter 2015 net revenues¹ were \$529 million, up 6% year-over-year. On an organic basis, excluding the impact of foreign exchange rates and acquisitions, revenues increased 9%.
- Non-GAAP operating margin was 48% in the third quarter of 2015, up from 46% in the prior year period.
- In the third quarter, Nasdaq repurchased approximately \$255 million of common stock. Through dividend payments and stock buybacks, the company returned \$418 million in capital to shareholders in the first nine months of 2015.

New York, N.Y.— Nasdaq, Inc. (NASDAQ: NDAQ) today reported record results for the third quarter of 2015. Third quarter net revenues were \$529 million, up 6% from \$497 million in the prior year period, driven by a \$55 million positive impact from operations, partially offset by a \$23 million negative impact from foreign exchange rates. On an organic basis, excluding the impact of foreign exchange rates and acquisitions, third quarter net revenues were up 9%, while across the non-trading segments, organic revenue growth was 8%.

"As evidence of the ongoing successful execution of Nasdaq's strategy, the company delivered broad-based organic growth, in both the transactional and recurring segments, and demonstrated the operating leverage inherent in the model", said **Bob Greifeld, CEO, Nasdaq**.

Mr. Greifeld continued, "I'm especially pleased that we were able to set this new, higher bar, while continuing to invest in attractive growth initiatives, like The NASDAQ Private Market, NFX, and IR Insight as well as returning a significant amount of capital to shareholders. Looking forward, the company is positioned to serve our customers across a wider spectrum of solutions than ever before, and we remain focused on executing against this expanded opportunity set to drive growth."

On a non-GAAP basis, third quarter 2015 operating expenses were \$276 million, up 3% as compared to the prior year quarter, due to higher organic spend and the impact of the Dorsey Wright acquisition partially offset by the favorable impact of changes in foreign exchange rates.

"Nasdaq's hallmark focus on efficiency combined with healthy organic revenue growth delivered robust cash flow in the quarter," said **Lee Shavel, EVP and CFO, Nasdaq**. "Seeing opportunities to generate attractive returns for shareholders through repurchases, the company took advantage of strong capital generation and balance sheet flexibility to accelerate the buyback program. The company's capital strategy will continue to evaluate all investment and capital return opportunities with a goal of maximizing shareholder returns."

On a GAAP basis, operating expenses were \$298 million in the third quarter of 2015, compared to \$290 million in the prior year quarter, and include a net \$22 million of expenses not reflected in non-GAAP operating expenses.

On a non-GAAP basis, net income attributable to Nasdaq for the third quarter of 2015 was \$151 million, or \$0.88 per diluted share, up \$0.10 compared to \$0.78 in the third quarter of 2014. On a GAAP basis, net income attributable to Nasdaq for the third quarter of 2015 was \$138 million, or \$0.80 per diluted share, compared with \$123 million, or \$0.71 per diluted share, in the prior year quarter.

¹ Represents revenues less transaction-based expenses.

Please refer to our reconciliation of GAAP to non-GAAP net income, diluted earnings per share, operating income and operating expenses included in the attached schedules.

The company repurchased 4.9 million shares, or approximately \$255 million of common stock, in the third quarter of 2015 at an average price of \$51.97. At September 30, 2015, there is \$226 million remaining on the buyback authorization.

At September 30, 2015, the company had cash and cash equivalents of \$290 million and total debt of \$2,435 million, resulting in net debt of \$2,145 million. This compares to net debt of \$1,870 million at December 31, 2014.

BUSINESS HIGHLIGHTS

Market Services (38% of total net revenues) - Net revenues were \$200 million in the third quarter of 2015, up \$11 million when compared to \$189 million in the third quarter of 2014. The \$11 million year-over-year increase reflects a \$22 million operational increase which was partially offset by an \$11 million decrease due to changes in foreign exchange rates.

Equity Derivatives (10% of total net revenues) – Net equity derivative trading and clearing revenues were \$51 million in the third quarter of 2015, up \$1 million compared to the third quarter of 2014. The increase in equity derivatives revenue was driven by higher average capture and industry volumes in the U.S., partially offset by foreign exchange impact and lower U.S. market share.

Cash Equities (13% of total net revenues) – Net cash equity trading revenues were \$67 million in the third quarter of 2015, up \$16 million compared to the third quarter of 2014. The increase in cash equity revenue resulted from higher average capture and higher industry volumes, partially offset by foreign exchange impact and lower U.S. market share.

Fixed Income, Currency and Commodities (4% of total net revenues) – Net FICC trading and clearing revenues were \$23 million in the third quarter of 2015, down \$7 million from the third quarter of 2014, due to volume declines in U.S. fixed income and commodities products, foreign exchange impact, and the scheduled termination of an eSpeed technology licensing customer, partially offset by higher European fixed income revenues.

Access and Broker Services (11% of total net revenues) – Access and broker services revenues totaled \$59 million in the third quarter of 2015, up \$1 million compared to the third quarter of 2014, as organic revenue increases were partially offset by the impact of changes in foreign exchange rates.

Information Services (25% of total net revenues) – Revenues were \$132 million in the third quarter of 2015, up \$18 million from the third quarter of 2014. The \$18 million year-over-year increase reflects a \$12 million operational increase and a \$9 million increase from Dorsey Wright, which was partially offset by a \$3 million decrease due to changes in foreign exchange rates.

Data Products (19% of total net revenues) – Data products revenues were \$103 million in the third quarter of 2015, up \$11 million compared to the third quarter of 2014, as increased revenue from proprietary and shared tape revenue plans, higher audit collections, as well as the inclusion of revenue associated with the Dorsey Wright acquisition were partially offset by the negative impact of changes in foreign exchange rates.

Index Licensing and Services (6% of total net revenues) – Index licensing and services revenues were \$29 million in the third quarter of 2015, up \$7 million from the third quarter of 2014. The revenue growth was primarily driven by the inclusion of revenue associated with the Dorsey Wright acquisition.

Technology Solutions (25% of total net revenues) – Revenues were \$131 million in the third quarter of 2015, down \$4 million from the third quarter of 2014. The \$4 million year-over-year decrease reflects a \$2 million operational increase, which was more than offset by a \$6 million decrease due to changes in foreign exchange rates.

Corporate Solutions (14% of total net revenues) – Corporate solutions revenues were \$72 million in the third quarter of 2015, down \$3 million from the third quarter of 2014. The corporate solutions revenue decline was due primarily to the impact of changes in foreign exchange rates.

Market Technology (11% of total net revenues) – Market technology revenues were \$59 million in the third quarter of 2015, down \$1 million from the third quarter of 2014. Declines were driven by an unfavorable impact from changes in foreign exchange rates, largely offset by organic growth. New order intake was \$83 million for the third quarter of 2015, and the order backlog at September 30, 2015 was \$738 million, up 16% from the prior year period.

Listing Services (12% of total net revenues) – Revenues were \$66 million in the third quarter of 2015, up \$7 million compared to the third quarter of 2014. The \$7 million year-over-year increase reflects a \$10 million operational increase which was partially offset by a \$3 million decrease due to changes in foreign exchange rates. The operational improvement is due to certain pricing actions and increases in the number of both U.S. and European listed companies.

CORPORATE HIGHLIGHTS

- The NASDAQ Stock Market (NASDAQ) Led U.S. Exchanges for IPOs in 3Q15. NASDAQ welcomed 80 new listings, including 35 IPOs. Approximately 80% of all U.S. IPOs listed with NASDAQ in 3Q15. IPOs included companies from diverse industries ranging from consumer, healthcare, energy and technology, including TerraForm Global, NantKwest, Sunrun, Rapid7, MasterCraft, Ollie's Bargain Outlet and Blue Buffalo.
- Continued momentum at The NASDAQ Private Market (NPM). During the third quarter of 2015, NPM grew its client base across its diverse
 product offering for equity management and liquidity programs to over 120 companies with 20 new NPM clients such as Legal Zoom, Mixpanel,
 and Farfetch. Also during the quarter, NPM and Morgan Stanley Wealth Management announced a joint initiative to make available wealth
 management education and services to employees and participants in private liquidity programs.
- Nasdaq Futures (NFX) launched on July 24, 2015 with a broad coalition of market participants across different sectors of the industry. NFX, Nasdaq's U.S. based energy futures market, launched trading across more than twenty products, with initial focus on several benchmark energy derivative products. Open interest steadily increased over the third quarter of 2015 and is now passing 300,000 contracts.
- **Nasdaq Entrepreneurial Center Opens in San Francisco.** Established by the Nasdaq Educational Foundation as a non-profit organization, the Center will serve as a central hub for entrepreneurs to learn to build and run successful businesses, and connect with an established global ecosystem of industry experts, academic institutions, mentors and other resources.
- **Corporate Solutions launches Market and Peer Insight module of next generation Nasdaq IR Insight desktop and mobile IR platform.** Nasdaq IR Insight is purpose-built for Investor Relations professionals and is slated to fully replace Thomson One IR in 2016. The Market and Peer Insight module released in July 2015 focuses on research and estimate capabilities, and feedback from customers has been extremely encouraging. The full IR Insight product, including the investors and contact management module, is in beta testing with customers and is expected to launch in January 2016.

- (1) Amortization expense related to intangible assets results primarily from business combinations. These non-cash expenses are fixed in connection with an acquisition, are then amortized over a number of years after the acquisition and generally cannot be changed or influenced by management after the acquisition. Management does not consider these expenses for the purpose of evaluating the performance of the business or its managers or when making decisions to allocate resources. Therefore, such expenses are shown as a non-GAAP adjustment.
- (2) During the first quarter of 2015, we performed a comprehensive review of our processes, businesses and systems in a company-wide effort to improve performance, cut costs, and reduce spending. In the first quarter of 2015, we also decided to change our company name from The NASDAQ OMX Group, Inc., to Nasdaq, Inc., which became effective in the third quarter of 2015. We currently estimate that we will recognize net pre-tax restructuring charges of \$188 million, consisting of the rebranding of our trade name, severance, asset impairments, facility-related and other costs. We recognized restructuring charges of \$8 million for the three months ended September 30, 2015, \$2 million for the three months ended June 30, 2015 and \$150 million for the three months ended March 31, 2015, with the remaining amount to be recognized through June 2016. The restructuring charge for the three months ended June 30, 2015 includes the reversal of a previously recorded sublease loss reserve of \$10 million for space we lease in New York, New York located at 1500 Broadway. In June 2015, as part of our real estate reorganization plans, management decided to occupy this space. Restructuring charges are recorded on restructuring plans that have been committed to by management and are, in part, based upon management's best estimates of future events. Changes to the estimates may require future adjustments to the restructuring liabilities.
- (3) For the three months ended September 30, 2015 and June 30, 2015, merger and strategic initiatives expense primarily related to certain strategic initiatives and our acquisition of Dorsey, Wright & Associates, LLC. For the three months ended September 30, 2014, merger and strategic initiatives expense primarily related to our acquisition of the Investor Relations, Public Relations and Multimedia Solutions businesses of Thomson Reuters, or the TR Corporate businesses, and other strategic initiatives.
- (4) In March 2015, we established a loss reserve of \$31 million for litigation arising from the Facebook IPO in May 2012, which was recorded in general, administrative and other expense. The reserve is intended to cover the estimated amount of a settlement of class-action litigation initiated on behalf of investors in Facebook common stock on the date of its IPO. The reserve also covered the cost of re-opening Nasdaq's voluntary accommodation program to allow any Nasdaq member that did not file for compensation in 2013 to submit a claim during the second quarter of 2015, subject to the conditions and limitations that were applicable to claims filed in 2013. The re-opened accommodation program is now closed. The insurance recovery recognized during the three months ended September 30, 2015 primarily represents amounts reimbursed by applicable insurance coverage. Nasdaq anticipates that some or all of remaining amounts paid from the loss reserve will be reimbursed by applicable insurance coverage.

- (1) Amortization expense related to intangible assets results primarily from business combinations. These non-cash expenses are fixed in connection with an acquisition, are then amortized over a number of years after the acquisition and generally cannot be changed or influenced by management after the acquisition. Management does not consider these expenses for the purpose of evaluating the performance of the business or its managers or when making decisions to allocate resources. Therefore, such expenses are shown as a non-GAAP adjustment.
- (2) During the first quarter of 2015, we performed a comprehensive review of our processes, businesses and systems in a company-wide effort to improve performance, cut costs, and reduce spending. In the first quarter of 2015, we also decided to change our company name from The NASDAQ OMX Group, Inc., to Nasdaq, Inc., which became effective in the third quarter of 2015. We currently estimate that we will recognize net pre-tax restructuring charges of \$188 million, consisting of the rebranding of our trade name, severance, asset impairments, facility-related and other costs. We recognized restructuring charges of \$8 million for the three months ended September 30, 2015, \$2 million for the three months ended June 30, 2015 and \$150 million for the three months ended March 31, 2015, with the remaining amount to be recognized through June 2016. The restructuring charge for the three months ended June 30, 2015 includes the reversal of a previously recorded sublease loss reserve of \$10 million for space we lease in New York, New York located at 1500 Broadway. In June 2015, as part of our real estate reorganization plans, management decided to occupy this space. Restructuring charges are recorded on restructuring plans that have been committed to by management and are, in part, based upon management's best estimates of future events. Changes to the estimates may require future adjustments to the restructuring liabilities.
- (3) For the three months ended September 30, 2015 and June 30, 2015, merger and strategic initiatives expense primarily related to certain strategic initiatives and our acquisition of Dorsey, Wright & Associates, LLC. For the three months ended September 30, 2014, merger and strategic initiatives expense primarily related to our acquisition of the TR Corporate businesses and other strategic initiatives.
- (4) In March 2015, we established a loss reserve of \$31 million for litigation arising from the Facebook IPO in May 2012, which was recorded in general, administrative and other expense. The reserve is intended to cover the estimated amount of a settlement of class-action litigation initiated on behalf of investors in Facebook common stock on the date of its IPO. The reserve also covered the cost of re-opening Nasdaq's voluntary accommodation program to allow any Nasdaq member that did not file for compensation in 2013 to submit a claim during the second quarter of 2015, subject to the conditions and limitations that were applicable to claims filed in 2013. The re-opened accommodation program is now closed. The insurance recovery recognized during the three months ended September 30, 2015 primarily represents amounts reimbursed by applicable insurance coverage. Nasdaq anticipates that some or all of remaining amounts paid from the loss reserve will be reimbursed by applicable insurance coverage.
