About DropCar

Founded and launched in New York City in 2015, DropCar offers its Vehicle Support Platform (VSP), a cloud-based platform and mobile app that help consumers and automotive-related companies reduce the cost, hassles and inefficiencies of owning a car, or fleet of cars, in urban centers. Its technology platform blends the efficiency and scale of cloud computing, machine learning and connected cars with the high-touch of highly trained valets to move cars to/from fully staffed, secure garages to/from the people (or businesses) who own them. Consumers use DropCar's mobile app to ease the cost and stress of owning a car in the city. Dealerships, leasing companies, OEMs and shared mobility companies use DropCar's enterprise platform to reduce costs, streamline logistics and deepen relationships with customers. More information is available at www.dropcar.com.
