### NASDAQ OMX REPORTS FIRST QUARTER 2013 RESULTS

- First quarter 2013 non-GAAP diluted EPS of \$0.64, tied for the second highest quarterly performance in company history; first quarter 2013 GAAP diluted EPS of \$0.25.
- First quarter 2013 net exchange revenues¹ were \$418 million, up 1% from the prior year quarter.
- Non-transaction based revenues were 72% of our first quarter 2013 net exchange revenues, compared to 69% in the prior year quarter, and increased 5% from the prior year quarter.
- First quarter 2013 non-GAAP operating expenses of \$237 million increased 2% from the prior year quarter.
- Beginning in 2013, we realigned our reportable segments as a result of changes to the organizational structure of our businesses.

**New York, N.Y.**—The NASDAQ OMX Group, Inc. (NASDAQ: NDAQ) today reported results for the first quarter of 2013. First quarter net exchange revenues were \$418 million, up from \$414 million in the prior year period, driven by increases in our Global Technology Solutions and Global Information Services segments, partially offset by lower U.S. cash equity trading revenues. On an organic basis (constant currency and excluding acquisitions) first quarter net exchange revenues decreased 2% year-over-year.

Operating expenses were \$328 million in the first quarter of 2013, compared to \$243 million in the prior year quarter. On a non-GAAP basis, first quarter 2013 operating expenses were \$237 million, up 2% as compared to the prior year quarter. On an organic basis (constant currency and excluding acquisitions), first quarter non-GAAP operating expenses fell 3% year-over-year.

First quarter 2013 non-GAAP diluted earnings per share were \$0.64, up \$0.03 compared to the prior year quarter. Non-GAAP diluted earnings per share in the first quarter of 2013 exclude \$62 million of expenses accrued for the one-time voluntary accommodation program. This program, which was approved by the SEC on March 22, 2013, expands the pool available to compensate members of the NASDAQ Stock Market for qualified losses arising directly from the system issues experienced with the Facebook IPO that occurred on May 18, 2012.

As previously disclosed, the staff of the SEC's Division of Enforcement is conducting an investigation relating to these systems issues. Although the Commission has not reached a final conclusion, NASDAQ OMX may pay \$10 million in connection with the potential resolution of this matter. As a result, non-GAAP diluted earnings per share in the first quarter of 2013 also exclude \$10 million of expenses accrued for this estimated liability.

Non-GAAP diluted earnings per share in the first quarter of 2013 further exclude \$10 million of non-cash asset impairment charges, \$9 million of restructuring charges, \$8 million of merger and strategic initiatives expenses, and \$2 million of special legal expenses. On a GAAP basis, net income attributable to NASDAQ OMX for the first quarter of 2013 was \$42 million, or \$0.25 per diluted share, compared with \$85 million, or \$0.49 per diluted share, in the prior year quarter.

Represents revenues less transaction rebates, brokerage, clearance and exchange fees.

"The successful execution of our strategy has delivered solid first quarter results" said **Bob Greifeld, CEO, NASDAQ OMX**. "While the volume environment remained challenging, our portfolio of corporate, trading, technology, and information businesses continue to deliver consistent revenue and earnings performance. We remain focused on helping our clients manage the growing complexity and connectivity, which is required to optimize today's global business environment, by delivering products and services that enhance efficiency and productivity in the environments in which they operate."

**Mr. Greifeld** continued, "Looking forward in 2013, while we are confident that a recovering economy and increasing investor confidence will eventually lead to stronger tailwinds for our businesses, our diverse client base of investors, financial institutions, exchanges, and regulators, and public and private companies, are not waiting idly by, and are actively looking for solutions that deliver a more effective means of interacting with the capital markets. As such, we continue to dedicate significant resources towards both organic initiatives, in particular our growing GIFT program, as well as strategic acquisitions, to enhance the options and opportunities inherent in our global offering."

### Lee Shavel, EVP and CFO, NASDAQ OMX said:

"We have realigned our business to better serve our customers and our revised business segments are intended to improve the transparency of our business model for investors. We have combined our Corporate Solutions and Market Technologies businesses to highlight the combined scale of our financial software businesses which will be further enhanced by the acquisition of the Thomson Reuters Corporate Services Business. Similarly, we have combined our Market Data and Index businesses to emphasize the strength of our information services businesses. The revenue and operating profit disclosures for these segments will facilitate comparisons to companies with similar revenue and profitability dynamics."

Mr. Shavel continued, "While we have delivered substantial value to shareholders through our share repurchases and dividends, we will be focused in the nearterm on reducing the leverage associated with our recently announced acquisitions of Thomson Reuters Corporate Services and eSpeed. Utilizing our strong and consistent cash flow, we believe NASDAQ OMX will return to pre-transaction leverage ratios within a year from closing these transactions. We remain focused on delivering on the objectives we set for the eSpeed and the Thomson Reuters Corporate Services businesses and believe they represent significant strategic and financial opportunities for our shareholders."

At March 31, 2013, the company had cash and cash equivalents of \$591 million and total debt of \$1,966 million, resulting in net debt of \$1,375 million. This compares to net debt of \$1,479 million at December 31, 2012. During the first quarter of 2013, the company repurchased 0.3 million shares of outstanding common stock under a share repurchase program, for a total of \$10 million. Since January 2010, NASDAQ OMX has repurchased \$1,182 million of outstanding common stock, representing 53.7 million shares at an average price of \$22.03.

### **BUSINESS HIGHLIGHTS**

Market Services (43% of total net exchange revenues) - Net exchange revenues were \$182 million in the first quarter of 2013, down \$8 million when compared to the first quarter of 2012.

Cash Equities (11% of total net exchange revenues) – Total net cash equity trading revenues were \$45 million in the first quarter of 2013, down \$8 million compared to the first quarter of 2012. The decline was due to lower industry volumes, both in the U.S. and in Europe, as well as lower market share, in particular in the U.S.

**Derivatives (17% of total net exchange revenues)** – Total net derivative trading and clearing revenues were \$74 million in the first quarter of 2013, down \$1 million compared to the first quarter of 2012. Net U.S. derivative trading and clearing revenues increased 5% year-over-year due to market share gains and positive revenue capture per traded contract. European derivative trading and clearing revenues declined \$3 million on lower rate per contract in equity derivatives due to pricing incentives aimed at capturing OTC volume and lower fixed income volumes, partially offset by higher commodity revenues and a favorable impact from foreign exchange of \$1 million.

Access and Broker Services (15% of total net exchange revenues) – Access and broker services revenues totaled \$63 million in the first quarter of 2013, up \$1 million compared to the first quarter of 2012. The increase was primarily driven by the uptake of new products including 40G connectivity.

**Information Services (26% of total net exchange revenues)** – Revenues were \$108 million in the first quarter of 2013, up \$6 million from the first quarter of 2012.

Market Data (22% of total net exchange revenues) – Total market data revenues were \$91 million in the first quarter of 2013, up \$4 million from the first quarter of 2012. U.S. market data products contributed the largest part of the increase, as a result of increased sales of proprietary products like Totalview and NASDAQ Basic, price increases to Level 2 products, and higher audit collections, partially offset by lower net U.S. tape plan revenues. Index data products also grew, while European market data products were flat.

**Index Licensing and Services (4% of total net exchange revenues)** – Index licensing and services revenues were \$17 million in the first quarter of 2013, up \$2 million from the first quarter of 2012. The revenue increase was split between growth in the value of assets in licensed products and from the acquisition of the index business of Mergent Inc., including Indxis.

**Technology Solutions (18% of total net exchange revenues)** - Revenues were \$73 million in the first quarter of 2013, up \$7 million from the first quarter of 2012.

Corporate Solutions (6% of total net exchange revenues) – Total corporate solutions revenues were \$24 million in the first quarter of 2013, up \$3 million from the first quarter of 2012. Corporate solutions revenues growth was primarily due to strong performance in Shareholder.com, GlobeNewswire, and Directors Desk products.

Market Technology (12% of total net exchange revenues) – Market technology revenues were \$49 million in the first quarter of 2013, up \$4 million from the first quarter of 2012. The revenue increase is primarily due to revenues from BWise, which we acquired in the second quarter of 2012. Order intake in the first quarter of 2013 decreased, from \$55 million in the first quarter of 2012 to \$19 million in the first quarter of 2013, as several customer purchasing decisions were delayed. The order backlog remains higher year-over-year.

**Listing Services (13% of total net exchange revenues)** – Revenues were \$55 million in the first quarter of 2013, down \$1 million compared to the first quarter of 2012. The decrease was driven by a decrease in U.S. listing revenues, driven by lower initial listing fees, partially offset by an increase in European listing revenues.

COST GUIDANCE – For the full year of 2013, core operating expenses are expected to be in the range of \$910 million to \$930 million, with an additional \$50 million to \$60 million in incremental new initiative spending, and \$12 million related to a 2013 accounting reclassification of certain Corporate Solutions expenses that were previously netted in revenue, resulting in total operating expenses in the range of \$972 million to \$1,002 million. This guidance excludes expenses related to our previously announced cost reduction plan, expenses for the voluntary accommodation program, the SEC matter, special legal expenses, and the expenses associated with the announced acquisitions of eSpeed and the IR, PR, and Multimedia Solutions businesses from Thomson Reuters.

### **CORPORATE HIGHLIGHTS**

- Agreement to acquire eSpeed. On April 1, 2013, NASDAQ OMX announced an agreement with BGC Partners, Inc., to acquire the eSpeed platform
  for trading U.S. Treasuries. Following the closing of the transaction, which is subject to regulatory approval, NASDAQ OMX intends to leverage its
  strong technology experience and leading distribution capabilities to further develop eSpeed's leading marketplace, while enjoying the structural
  tailwinds of a growing U.S. Treasury market.
- Joint venture with SharesPost announced to form NASDAQ Private Market. NASDAQ OMX and SharesPost announced a NASDAQ OMX majority owned joint venture that will establish the preeminent marketplace for private growth companies. The NASDAQ Private Market (NPM) will provide improved access to liquidity for early investors, founders, and employees, while enabling the efficient buying and selling of private company shares. NPM is expected to launch later in 2013, pending regulatory approvals.
- Combination of Market Technology and Corporate Solutions businesses. NASDAQ OMX combined the Market Technology and Corporate
  Solutions businesses, which are now included under the Technology Solutions segment and are led by Anna Ewing, Executive Vice President,
  Technology Solutions. The combination enables increased customer focus, growth across the company's technology businesses and a dedicated
  software and technology management structure.

Combination of Data Products and Index Group businesses. NASDAQ OMX combined the Data Products and Index Group businesses, which
are now included under the Global Information Services segment and are led by John Jacobs, Executive Vice President, Global Information Services.
The combination enables greater customer focus and leverage of NASDAQ OMX's scalable technology, product innovation and robust distribution
channels.

### **About NASDAQ OMX Group**

The inventor of the electronic exchange, The NASDAQ OMX Group, Inc., fuels economies and provides transformative technologies for the entire lifecycle of a trade - from risk management to trade to surveillance to clearing. In the U.S. and Europe, we own and operate 23 markets, 3 clearinghouses and 5 central securities depositories supporting equities, options, fixed income, derivatives, commodities, futures and structured products. Able to process more than 1 million messages per second at sub-40 microsecond speeds with 99.99+% uptime, our technology drives more than 70 marketplaces in 50 developed and emerging countries into the future, powering 1 in 10 of the world's securities transactions. Our award-winning data products and worldwide indexes are the benchmarks in the financial industry. Home to over 3,300 listed companies worth more than \$6 trillion in market cap whose innovations shape our world, we give the ideas of tomorrow access to capital today. Welcome to where the world takes a big leap forward, daily. Welcome to the NASDAQ OMX Century. To learn more, visit www.nasdaqomx.com. Follow us on Facebook (www.facebook.com/NASDAQ) and Twitter (www.twitter.com/nasdaqomx). (Symbol: NDAQ and member of S&P 500)

### **Non-GAAP Information**

In addition to disclosing results determined in accordance with GAAP, NASDAQ OMX also discloses certain non-GAAP results of operations, including, but not limited to, net income attributable to NASDAQ OMX, diluted earnings per share, net exchange revenues, operating income, and operating expenses, that make certain adjustments or exclude certain charges and gains that are described in the reconciliation table of GAAP to non-GAAP information provided at the end of this release. Management believes that this non-GAAP information provides investors with additional information to assess NASDAQ OMX's operating performance by making certain adjustments or excluding costs or gains and assists investors in comparing our operating performance to prior periods. Management uses this non-GAAP information, along with GAAP information, in evaluating its historical operating performance.

The non-GAAP information is not prepared in accordance with GAAP and may not be comparable to non-GAAP information used by other companies. The non-GAAP information should not be viewed as a substitute for, or superior to, other data prepared in accordance with GAAP.

### **Cautionary Note Regarding Forward-Looking Statements**

Information set forth in this communication contains forward-looking statements that involve a number of risks and uncertainties. NASDAQ OMX cautions readers that any forward-looking information is not a guarantee of future performance and that actual results could differ materially from those contained in the forward-looking information. Such forward-looking statements include, but are not limited to (i) projections about our future

financial results, growth, trading volumes, taxes and achievement of synergy targets, (ii) statements about the closing or implementation dates and benefits of certain strategic and capital return initiatives, (iii) statements about our integrations of our recent acquisitions and (iv) other statements that are not historical facts. Forward-looking statements involve a number of risks, uncertainties or other factors beyond NASDAQ OMX's control. These factors include, but are not limited to, NASDAQ OMX's ability to implement its strategic initiatives, economic, political and market conditions and fluctuations, government and industry regulation, interest rate risk, U.S. and global competition, and other factors detailed in NASDAQ OMX's filings with the U.S. Securities and Exchange Commission, including its annual reports on Form 10-K and quarterly reports on Form 10-Q which are available on NASDAQ OMX's website at http://www.nasdaqomx.com and the SEC's website at www.sec.gov. NASDAQ OMX undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

### **NEWS RELEASE**

April 24, 2013

### NASDAQ OMX announces quarterly dividend of \$0.13 per share

New York, N.Y.— The Finance Committee of the Board of Directors of The NASDAQ OMX Group, Inc. (NASDAQ: NDAQ) has declared a regular quarterly dividend of \$0.13 per share on the company's outstanding common stock. The dividend is payable on June 28, 2013, to shareowners of record at the close of business on June 14, 2013. Future declarations of quarterly dividends and the establishment of future record and payment dates are subject to approval by the Board of Directors.

### **Cautionary Note Regarding Forward-Looking Statements**

Information set forth in this communication contains forward-looking statements that involve a number of risks and uncertainties. NASDAQ OMX cautions readers that any forward-looking information is not a guarantee of future performance and that actual results could differ materially from those contained in the forward-looking information. Such forward-looking statements include, but are not limited to, statements about our capital return initiatives. Forward-looking statements involve a number of risks, uncertainties or other factors beyond NASDAQ OMX's control. These factors include, but are not limited to, NASDAQ OMX's ability to implement its strategic initiatives, economic, political and market conditions and fluctuations, government and industry regulation, interest rate risk, U.S. and global competition, and other factors detailed in NASDAQ OMX's filings with the U.S. Securities and Exchange Commission, including its annual reports on Form 10-K and quarterly reports on Form 10-Q which are available on NASDAQ OMX's website at http://www.nasdaqomx.com and the SEC's website at www.sec.gov. NASDAQ OMX undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

### **About NASDAQ OMX Group**

The inventor of the electronic exchange, The NASDAQ OMX Group, Inc., fuels economies and provides transformative technologies for the entire lifecycle of a trade—from risk management to trade to surveillance to clearing. In the U.S. and Europe, we own and operate 23 markets, 3 clearinghouses and 5 central securities depositories supporting equities, options, fixed income, derivatives, commodities, futures and structured products. Able to process more than 1 million messages per second at sub-40 microsecond speeds with 99.99+% uptime, our technology drives more than 70 marketplaces in 50 developed and emerging countries into the future, powering 1 in 10 of the world's securities transactions. Our award-winning data products and worldwide indexes are the benchmarks in the financial industry. Home to over 3,300 listed companies worth more than \$6 trillion in market cap whose innovations shape our world, we give the ideas of tomorrow access to capital today. Welcome to where the world takes a big leap forward, daily. Welcome to the NASDAQ OMX Century. To learn more, visit www.nasdaqomx.com. Follow us on Facebook (www.facebook.com/NASDAQ) and Twitter (www.twitter.com/nasdaqomx). (Symbol: NDAQ and member of S&P 500)
