¹ Verafin purchase price of $2.75B reflected certain amounts that were paid post close due to tax and other structuring items. These included a tax payment of $221M and a purchase price holdback escrow of $102M. The cash outflow for the tax liability is offset within Acquisitions of businesses, net of cash and cash equivalents acquired within investing activities, leading to no impact on the total change in cash and cash equivalents and restricted cash and cash equivalents for the year ended December 31, 2021.

² Net of change in Section 31 fees receivables of $(10) million in 2018; $9 million in 2019; $35 million in 2020; $(56) million in 2020; $(1) million in 2022 YTD; and $(23) million in 2018-2022 YTD.

¹ARR for a given period is the annualized revenue derived from subscription contracts with a defined contract value. This excludes contracts that are not recurring, are one-time in nature, or where the contract value fluctuates based on defined metrics. ARR is one of our key performance metrics to assess the health and trajectory of our recurring business. ARR does not have any standardized definition and is therefore unlikely to be comparable to similarly titled measures presented by other companies. ARR should be viewed independently of revenue and deferred revenue and is not intended to be combined with or to replace either of those items. ARR is not a forecast and the active contracts at the end of a reporting period used in calculating ARR may or may not be extended or renewed by our customers.

**ARR:** ARR for a given period is the annualized revenue derived from subscription contracts with a defined contract value. This excludes contracts that are not recurring, are one-time in nature, or where the contract value fluctuates based on defined metrics. ARR is one of our key performance metrics to assess the health and trajectory of our recurring business. ARR does not have any standardized definition and is therefore unlikely to be comparable to similarly titled measures presented by other companies. ARR should be viewed independently of revenue and deferred revenue and is not intended to be combined with or to replace either of those items. ARR is not a forecast and the active contracts at the end of a reporting period used in calculating ARR may or may not be extended or renewed by our customers.

**Solutions Segments:** Revenues from our Corporate Platforms, Investment Intelligence and Market Technology segments.

**Net Revenues:** Revenues less transaction-based expenses.

**AUM:** Assets Under Management.

**ETP:** Exchange Traded Product.

**MIO:** Market infrastructure operator.

**NFI:** Nasdaq’s U.S. Fixed Income business.

**New Logo Clients:** New clients that have not previously transacted with Nasdaq.
